

Job Opportunity: GIS Consultant/Trainer

Exprodat: Exprodat, the natural resources ArcGIS platform specialist, Esri Gold Partner and Getech Group company, seeks a **GIS Consultant/Trainer** to join its team in London, U.K.

The Job: As a GIS consultant/trainer, you will spend a large part of your time on client-facing engagements, delivering Exprodat's market-leading ArcGIS Desktop training courses and working on GIS implementation projects.

You will be expected to undertake travel for short periods within the UK, Europe and worldwide so a willingness to travel is essential.

Working as part of a small team, the role includes:

- Delivering Exprodat's classroom-based ArcGIS training courses
- Updating training courses materials (e.g. for new software features)
- Implementing and maintaining desktop and web-based GIS solutions
- Data manipulation and spatial data processing

You: The successful candidate will have:

- First degree and/or Masters in Earth Sciences, Geography or a GIS-related subject
- Experience in using ArcGIS software
- Experience in teaching, technical training and consulting
- Ability to work independently with little supervision
- Excellent interpersonal skills – the ability to interact internally and with clients to arrange and deliver effective training courses
- Excellent communications skills (both written and oral English)
- Enthusiasm, drive and ambition to succeed, and to help others succeed in their learning
- Able and willing to travel as required

Salary:

- Dependent on experience, plus benefits.

This is an ideal role for an individual with excellent client facing skills and who has previous GIS training, teaching experience or GIS consulting experience. The role offers the opportunity to advance your knowledge of how GIS is used within the natural resources sector, and to be part of an exciting and growing company.

It offers great scope and variety for an individual who enjoys client facing activities and who likes to travel.

To apply:

- Email your CV and a covering letter to info@exprodat.com
